### Customer Agreement

- A. As a qualified Silicon Valley Power (SVP) Customer, I agree to indemnify the City of Santa Clara, its City Council, commissions, officers, employees, volunteers, Strategic Allies, and agents from any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and reasonable attorney's fees in providing a defense to any claim arising from this Rebate.
- B. I certify that I will purchase and install the indicated energy saving equipment or implement the indicated energy efficiency measures during the current SVP program year. I will provide a copy of the itemized proof of purchase and installation.
- C. I agree to verification inspections by SVP representatives or its third party contractors of both the sales transaction and product or measure installation.
- D. I certify that the information provided on this rebate application is true and correct.
- E. I understand that the installed equipment or measures must be operational and producing energy savings for a minimum of five (5) years after the project is completed. If the equipment or measures are removed or otherwise not producing energy savings, I understand that I may have to return a prorated amount of the rebate funds received.
- F. I certify that I have not received any other rebates for the equipment or measures indicated on this rebate application.
- G. All pages of this Application are included in and are part of this Agreement. This Application embodies the entire agreement between SVP and the Customer.
- H. Silicon Valley Power's Public Benefit Programs operate under a July-June annual budget calendar. Rebate funding is limited by the annual budget. Rebate applications are accepted on a first come, first served basis until the rebate budget is expended.
- I. Customer is limited to receiving a maximum of \$750,000 of rebate funds in the 2018-2019 program year (July 1, 2018 through June 30, 2019). This includes incentives received through all SVP programs. After June 30, 2019 the rebate fund maximum is \$500,000. Projects approved in the 2018-2019 program year that are completed after June 30, 2019 will be counted against the Customer \$500,000 rebate limit.
- J. Customer is limited to receiving a maximum of \$500,000 of rebate funds for similar measures installed at a single facility (stand-alone building). This limitation applies for a period of five (5) years.

**I have read and understand this Application, including the Program Rules and Eligibility Requirements, and I agree with all of its provisions.**

kWh Savings:   
*for official use only*

## 2. Program Rules and Eligibility Requirements

### General:

- 2.1. Rebates are available on a first come, first served basis until all program funds are expended.
- 2.2. All rebate applications must be pre-approved by SVP prior to installation of equipment. To help ensure the project meets all eligibility requirements, SVP recommends that project pre-approval be obtained by the customer before equipment selection is finalized.
- 2.3. SVP has the right to inspect the facility before and after the equipment is installed.
- 2.4. Equipment purchased for inventory or resale does not qualify for funding. Equipment must be new. Used and/or rebuilt equipment is not eligible.
- 2.5. Projects are to be completed within 6 months of the date of pre-approval. Projects requiring more time must submit a request for extension. This request will be approved or denied at SVP's discretion.
- 2.6. A post-installation inspection must occur within 1 month of the installation date.
- 2.7. Detailed, dated copies of all invoices(s) must be submitted along with pertinent equipment data/cut sheets within 2 months of installation.
- 2.8. The rebate recipient will be responsible for any tax liability resulting from the rebate payment.
- 2.9. The incentive payment is limited to 100% of the cost of the project
- 2.10. SVP will not reimburse taxes paid for a project.

### Technical Requirements:

- 2.11. The enhanced ventilation controller specification sheet must be submitted for SVP eligibility approval. An enhanced ventilation controller is an add-on digital control system for a packaged HVAC unit that optimizes economizer, supply fan, heating, and cooling operation.
- 2.12. The controller must be installed on an existing gas/electric, heat pump, or electric-only packaged HVAC unit.
- 2.13. HVAC units with existing variable speed supply fan control or without an existing economizer are not eligible.
- 2.14. The controller must be capable of reducing supply fan speed to at least 50% of full speed.

# Silicon Valley Power HVAC Enhanced Ventilation Control 2018-2019 Rebate Application

- 2.15. Submit controller sequence of operation, including the control logic for integrated cooling/economizer operation and fan speed control.
