## REBATE GUIDELINES

### Eligibility

- This rebate is available only to current Silicon Valley Power (SVP) residential customers who are under a residential rate schedule. Landlords may participate if their tenant is an eligible SVP residential customer.
- The charging station(s) must be installed at the Customer's service address.
- Customer intends to operate the charging station at the listed service address for its useful life.

### Payment

- **Rebate amounts are up to \$750 per charging station.** An electric vehicle charging station with multiple ports, or plugs, is considered one unit and is eligible for a single rebate.
- **Limit of two (2) charging station rebates per residential account.**
- The rebate amount cannot exceed the pre-tax purchase price of the charging station plus permit fees, excluding taxes or shipping costs and including additional incentives received by Customer (i.e., other rebates or grants).
- Rebates are valid for purchases made with United States currency only.
- Rebate checks will typically be mailed within 4 to 6 weeks of receiving a complete application and supplemental documents.

### Charging Station Requirements

- Must be a Level 2 (240-volt) charging station with an SAE J1772 standard connector plug.
- Must be a new unit. Charging stations that are portable, resold, rebuilt, or received from warranty insurance claims are not eligible for rebates under this program.
- Level 2 charging cords are not eligible.
- Must be wall or pedestal-mounted.
- Must be certified by Underwriters Laboratories Inc. (UL Listed), ETL Listed, or approved by the City of Santa Clara Building Department.

### Miscellaneous

- Customer agrees that all credits allowed by the State of California's Low Carbon Fuel Standard (LCFS) credits program are the property of and belong to SVP. Customer agrees not to take any actions to generate such credits to its account. Customer further agrees to assign any such credits to SVP.
- Customer agrees that SVP reserves the right to inspect the installation premises of the Level 2 charging station for 24 months after receipt of a complete application. SVP may deny issuing the rebate if this condition is not met by the Customer.
- SVP disclaims any liability, loss, or damage that may arise as a result of the Customer's participation in this program.
- SVP is not responsible for any taxes that Customer may incur as a result of participation in the Residential Electric Vehicle Charging Station Rebate program. Please consult your tax advisor with questions or concerns.
- Customer is solely responsible for ensuring all products are installed to the manufacturer's specification.
- All electrical work must be in accordance with local codes, permitting, and inspection requirements. The City of Santa Clara permit must have final approval to receive rebate. Please call (408) 615-2420 or visit [santaclaraca.gov/index.aspx?page=2447](http://santaclaraca.gov/index.aspx?page=2447) for more information.
- Installing a Level 2 charging station requires a permit from the City of Santa Clara. This is an over-the-counter permit. Please refer to [santaclaraca.gov/home/showdocument?id=51734](http://santaclaraca.gov/home/showdocument?id=51734).

Qualifying measures and rebate values are subject to change. Visit [www.siliconvalleypower.com/EV](http://www.siliconvalleypower.com/EV) or call (408) 244-SAVE (7283) to verify before purchase or installation.
