Official Use Only

**2009-2010 NC DESIGN TEAM INCENTIVE  
FORM INSTRUCTIONS**

**Form Instructions**

Customer must sign and submit form with a Rebate Agreement. See Rebate Agreement for additional requirements.

**Design Team Leader Information**

Provide the name, street address and phone number of the Design Team company . The contact name and title should be entered.

**EnergyPro / eQuest Title-24 Compliance Report**

Enter the report date of the final Title-24-2005 Compliance Report. Provide the building address as well as the building area in square feet.

*Whole Building Energy Use*

Fill out "kWh per year Budget" and "kWh per year Proposed" from the Title-24 calculations. Do not include gas usage. Incentive level and the total rebate will be calculated automatically.

*Measure Details*

Based on Title-24 calculations, enter the "kWh per year Budget" and "kWh per year Proposed" for each specified measure. Negative rebates in one area will be offset by positive rebates in others. The total incentive for the individual measures should sum to the total rebate amount.

HVAC:

Use the sum of space heating, space cooling, indoor fans and heat rejection. Do not include gas usage.

Pumps/Motors:

Based on Title-24 calculations for pumps.

Hot Water:

Enter electric use from domestic hot water. Do not include any gas usage. If hot water is gas only, leave blank.

Lighting:

Based on T-24 calculations for lighting.

**Program Rules**

**Application must be submitted for Pre-Approval**

- 1 Building must exceed **current** Title-24 budget requirements over 15% in order for the Design Team to be eligible.
- 2 DesignTeam Incentive is paid directly to the Design Team. Design team incentive will not exceed \$50,000.
- 3 Non-residential new construction and building additions requiring Title-24 energy budget compliance are eligible. Major building renovations that require Title-24 compliance also meet this requirement.
- 4 Submit an EnergyPro or eQuest Title-24 Compliance documentation to demonstrate eligibility. The Compliance Approved Report is defined as the final Title-24 documentation submitted to and approved by the building department.
- 5 Building construction permit must be issued within 12 months of incentive application in order to be eligible for a rebate.
- 6 Rebates are processed once SVP has received: the approved Compliance Report; a signed copy of all lighting and mechanical Certificate of Acceptance/Acceptance Requirements; and, the project has passed a final inspection by SVP.
