This certification will be used to evaluate the patient’s eligibility for participation in the City of Santa Clara’s Medical Rate Assistance Program. Applicants who are prescribed a high usage electric device by a physician for treatment of a medical condition or disability must provide a physician’s certification form documenting the patient’s needs and requirements for an electric device for treatment. Paraplegic, hemiplegic, or quadriplegic people qualify. Similarly, a scleroderma patient with special heating or cooling needs qualifies, as do residents depending on life support equipment.

Please list the patient’s medical condition(s) that requires a high usage electric device. An electric device is defined as any device prescribed by a physician that consumes above and beyond normal energy consumption. This definition includes any prescribed durable medical equipment and/or a space conditioning device. In addition, list the electric device prescribed for this patient’s treatment and the duration the patient will need the device. If the patient requires multiple devices, please provide the duration of each.
