# SILICON VALLEY POWER

| RATE SCHEDULE A<br>MUNICIPAL WATER DEPARTMENT | Sheet 1 of 1 |
|---|---|

DESCRIPTION OF SERVICE:
The schedule is applicable to electricity used by the Municipal Water Department for water and sewer pumping service.

RATES:

| | |
|---|---|
| All kWh, per kWh | $ 0.15110 |

SURCHARGE:
Public Benefits Charge and State Surcharge, as set forth in Note A, will be added to the above charge.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy and low income assistance programs. The surcharge is equal to kWh billed times 2.85%.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:
